Major Duties:

Incumbent develops and conducts experiments which lead to a fuller understanding of host-plant resistant genes, management of resistant genes, and implementation of field-based aspects of marker-assisted selection in cereal breeding and improvement. Has responsibility for experimental investigations that evaluate cereal germplasm under field conditions. Determines germplasm with improved characteristics (such as improved disease resistance, insect resistance, and end-use quality). Provides input as to the feasibility of experiments and possible impact of findings. Serves as a specialist in field plot design, database management, statistical analysis, and cereal crop breeding and pathology. Responsible for field research at multiple locations in North Carolina and other southeastern states such as Georgia, South Carolina, and Virginia in order to determine the effects of an environmental variability on disease resistance. Initiates contacts with the collaborators from ARS and the universities and has responsibility for maintaining quality control for the joint efforts.

Working Conditions and Other Considerations:

Position requires about 10 percent travel during the year. This travel is to the southeast region of the U.S. (Georgia, North Carolina, South Carolina, and Virginia) for 2-to-4 days at a time. Overnight stays are required.

Qualifications Required: Your education and experience will be evaluated against all qualification requirements (basic and any additional requirements) listed below.

Basic Requirements

A four year course of study leading to a bachelor's or higher degree in genetics or one of the basic biological sciences that included at least 9 semester hours in genetics; **OR** a combination of education and experience with the core number of educational credits.

Additional Requirements:

In addition to meeting the basic entry qualifications requirements, applicants must possess specialized experience and/or directly related education as follows:

One (1) year of specialized experience equivalent to at least the GS-09 level in the Federal service; OR, three years of progressively higher level graduate education leading to a Ph.D. degree, or Ph.D., or equivalent doctoral degree in genetics or a curriculum or pattern of training that placed major emphasis on genetics.

Specialized Experience - experience which has equipped you with the following Knowledge, Skills and Abilities - 'KSAs' required to perform the duties of this position:

1. Knowledge of the principles, theories, practices, and established methodology of plant genetics and plant pathology.
2. Knowledge of plant breeding including classical plant breeding and genetic engineering.
3. Skill in developing, planning, and conducting experimental studies in support of research.
4. Skill in the operation of computers for data acquisition, generation of data summaries/graphics, and for statistical analysis.

Time-In-Grade Restrictions apply for all candidates considered under Merit Promotion/Alternative Merit Promotion.

This position has a positive education requirement. You must provide a copy of your academic transcripts OR a list of college courses with credit hours, dates completed, and grades received to verify education when applying for this position. If this information is not provided, your education may not be appropriately evaluated, and you may lose consideration for this position. If you are selected for this position, you will have to provide an official copy of your transcripts prior to entering on duty.

Other Important Information

Benefits Package:

A Benefits Package is authorized for this position. Additional information about Federal benefits can be obtained at www.usajobs.opm.gov/ei61.htm.

Veteran's Preference:

For further details, call the U.S. Office of Personnel Management (OPM) at 703-724-1850 or TDD 978-461-8404.
